HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE-NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street, lying just west or back of the lands of the South San Francisco Homestead and Railroad Association, and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The track will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon.

The Rev. E. Thomas, D. D.,

Is President of the Association; Lester L. Robinson, formerly Vice President of the Sacramento Railroad Company, is the Treasurer, and Thomas B. Lewis, formerly of Portland, Secretary.

Four lots, 25x120 feet each, constitute a share, costing $315—paid in monthly installments of $10 each, after the first payment of $20 has been made.

Maps and books giving full information of the workings of the Association can be obtained at the store of J. L. PARRISH & CO.

[DESPATCHES TO THE OREGONIAN.]

DATES TO MAY 9.

The Labor Question in Illinois.

CHICAGO, May 9.—The labor question is still agitated, though daily creating less excitement. The *Tribune* thinks nine-tenths of the laborers in the city have resumed their work, mostly at the old terms. Some of the strikers hold out, especially the machinists, whose places cannot be readily filled. The railroad shops are mostly closed. Repairs are being made at shops outside of the State.

Family Poisoned—News from the Plains.

JACKSON, (Mich.) May 9.—An entire family of five persons, near the city, died suddenly. They are supposed to have been poisoned. Great excitement prevails in the neighborhood.

A *Tribune* special reports that Hancock is falling back. A temporary defeat of Hancock is expected, or a horrible massacre. The detachments of Indians seem to be combining for a last struggle for the supremacy of the Smoky Hill route. The council with the Arrapahoes resulted in a declaration for peace by the Indians.

New York, May 9.—Cleared yesterday, the *Golden Rule*, for San Francisco.

Garrison Goes to Europe.

BOSTON, May 8.—William Lloyd Garrison has sailed for Europe. He was presented with $30,000 by his friends before starting, and the amount is to be increased to $50,000.

NEW YORK, May 8.—The matches between Cora and Lew Pettit, two mile heats in harness, for $10,000, fell through. Pettit paid forfeit.

Maryland Affairs.

ANNAPOLIS, May 8.—The Maryland Constitutional Convention was organized to-day. A committee was appointed to prepare an oath to be submitted to the members.

A Conspiracy in New York City.

NEW YORK, May 8.—The police authorities have discovered an organized conspiracy of rum sellers, Irishmen and city roughs, to precipitate a riot on the scale of the riot of July, 1863, the object being to overthrow the excise law and vengeance on the police. The disaffected of the different wards have been holding meetings for several weeks. Associations have been formed and the members sworn to secrecy. Arms were to be procured, the organization partaking of a military character. The leaders and prime movers have been disappointed. All the meetings thus far have been attended by police detectives in disguise. The names of the leaders and their plans are well known. No fears are entertained as to the result of an uprising.

Practical Application of Democratic Principles

The gentlemen whose vocabulary contained no such word as 'traitor' while the rebellion was raging have of late become quite flippant in the use of that term If there has been any treason at the Southern side of the circle (speaking after the manner of our mechanical fellow citizen from Tennessee) these persons do not know it But they have discovered that treason is rampant at the North Men who never uttered a syllable against the Confederate Congress are now arraigning the Congress of the United States The pensioned organ of the Administration in this city, as if determined to please its benefactor and prove itself worthy of its hire, charges Congress as a body and its members in their individual capacity, with the guilt of "treason" This is merely an echo from the head of the Administration But is curious to observe the fine frenzy with which the words "treason" and "traitor" are uttered by one who but so recently learned them Now we beg to suggest that the members of Congress against whom this charge is laid, may not be so much in the wrong after all We can prove by the soundest of Democratic argument that the charge against them is entirely groundless A single remark is quite sufficient for their vindication The members of Congress are "acting under the orders of their States." States, you know, cannot commit treason, nor can men who "obey their States" be held to answer for their actions The questions at issue were referred to the States last fall, and members of Congress received specific instructions to act here to the policy they are now pursuing Why, then, this charge of "treason?" Is it not a fundamental principle of Democracy that men must obey their States? And do not Democrats hold that it is atrocious to charge such persons with the crime of treason? Why, then, this departure from Democratic principles? Why this attempt, in defiance of reason and law, to fasten so odious a charge on men who are "obeying their States?" For the honor and consistency of Democratic principles let it be discontinued It is contrary to the "soundest principles of law," (see "organ")—and "no jurist or statesman of decent reputation"—(see "organ" again)—would pronounce an act to be treason that was done under State authority. Let us have an end, then, of these charges against Congress Tried by true Democratic principles, they are equally absurd and atrocious Will the organs of the Confederate Democracy take notice?

Unpromising Prospect for a State

An enumeration of the children in Nevada of the proper age to attend the public schools under the educational system of that State, shows the number to be only 2,559 The whole number enrolled in the schools of the State is 2,181, and the average daily attendance is 944 What a showing is this for a State! The most enthusiastic Nevadan will doubtless confess that this is an exceedingly slender basis for a State to be built upon. Only 2,500 children in the whole State, and less than 1,000 in the schools! The prospects of Nevada for actual growth and positive advancement can hardly be called flattering A State which has no more children than Nevada has not a very solid social fabric It is lacking in this first essential element of real prosperity. This phenomenon is proof that nobody, or almost nobody, "lives" in Nevada. Those who are there are merely "staying" for the present, and intending as soon as possible to go elsewhere They are delving in the mines with the single idea of acquiring wealth, and purposing to go somewhere else to enjoy it. The same state of things is apparent in all our mining Territories Oregon, with its comparatively steady habits is not free from the same influences But Oregon has most favorable prospects compared with those of Nevada. There are a great many people who *live* here, and Oregon's twenty thousand school children give hope and encouragement for the future of the State But it can hardly be said that a State which has only one thousand children in her schools is established on sure foundations.

We have several times presented choice extracts from a little paper up the country called the *Owyhee Bullion* Here is another that will do to go with the rest

Every Yankee schoolmaster who went South and honestly pursued his avocation, and who was not a dirty abolition chief, was treated with more cordiality and respect than was ever accorded to him by his own puritan brethren, but glad flocked whelps, who went South for the purpose of carrying out the infamous teachings of their abolition masters when detected, frequently received the punishment they richly deserved.

This confession is as ingenuous as the language, (considered from a Democratic stand point) is elegant. Here is still another and a choicer extract

To that class who are governed by hate, and not by reason, that we have to say it, bowl on. The bellowing-low fiung—crackbrained scavengers, who feed upon lies as a pig feeds upon swill, will but little disturb the serenity of our repose Such hate the truth, because of their ignorance of its use—they hate decency because they are the spawn of filth, and naturally prefer the slime and dirt that surround their own worthless car ss in which they delight to wallow They have not the ability to meet a proposition in manly argumentation, and consequently must descend into the blackguards arena of vilification and abuse, forgetting that this system of attack recoils upon their own head, convinces nobody of sense, and is scoffed at by every man of ordinary intelligence

This "manly argumentation" against "black guards who descend into the arena of vilification," strikes us, about closes the case

The Springfield *Sentinel*, a leading organ of the Democracy of Illinois, says

Had we known as we now know, as doubtless thousands of other Democrats feel, the 'Union' armies would have been smaller, and the Confederate larger

Which the New York *Day Book*, the organ of the Old Guard of Democracy, thus comments upon.

This is a manly confession of the great and terrible mistake the Democratic leaders of the North made in joining the Mongrel war And the only atonement to be made for this great mistake and crime is to forthwith abandon every plank that was in the war platform Repudiation of all that belonged to the war is the only wise course for the Democracy to follow

This exposition of principles suits the party in Oregon to a dot They want nothing less substantial or sound.

CHICO MAIL —The Owyhee *Avalanche* of the 27th of April, thus bids farewell to the Chico mail

"The Chico *Courant* of the 12th inst., contains an advertisement of auction sales to take place on the 23d inst Among other things, the entire effects of the California and Idaho Stage Company were to be disposed of in that way This concludes the farce commenced nearly two years ago—a continually distracting subject and one containing no redeeming feature of more than momentary duration Last week we mentioned the fact of weekly mail service being substituted for the tri weekly infliction with which the public were cursed most of the winter. We only doubly say—*sic transit* California and Idaho Stage Company James Mack loaned the old bilks several thousand dollars, securing himself by mortgage. He thought seriously of running the line this summer, but the mail contract being discontinued, he wisely does the next best thing"

The Puritanical mode of conducting hostilities against the Indians was the most sensible and effectual that has ever been tried A repetition of this mode, strictly after that employed with the Pequods and Narragansetts, is the best thing for the Government to do. The Generals conducting the war on the plains would do well to study old history and take lessons from the fathers on the art of conducting an Indian war

The population of London is now three millions, and $25 000 000 are annually raised for its charities A portion of this sum is derived from the income of endowed charities, but the greater part of it is obtained by voluntary contributions

The *Freed* a Quaker paper speaks enthusiastically of Mrs Elizabeth Cady Stanton It says of her

Her power over an intelligent audience is irresistible Keen as Phillips majestic as Sumner, elegant as Curtis tender and womanly as Lucretia Mott, magnetizing a magic logic with the most ethereal graces her claim to a place among the first of American orators and statesmen is beyond dispute Her rightful place is in the Senate

Gen Sherman's idea of managing the Indians who are given to frequent disturbances is, that we must get among them and kill enough of them to inspire fear among the remainder

Edward McPherson Clerk of the National House of Representatives, is writing a biography of Thaddeus Stevens

Copperheads denounce the Sherman bill There was another Bill Sherman whom they equally denounced during the war

MRS MARGARET BUELL, wife of General D C Buell who has had a Grover & Baker Machine in constant use seven years, says she does all kinds of work—hemming felling tucking, and everything that the fingers can do and that she prefers it over all other machines on account of its durability of work elasticity and strength of stitch ease of movement and simplicity of construction Wm Currier & Co Agents 103 Front street Portland

PUBLIC SPEAKERS AND SINGERS WILL FIND *Brown's Bronchial Troches* beneficial in clearing the voice before speaking or singing and relieving the throat after any unusual exertion of the vocal organs having a peculiar adaption to affections which disturb the organs of speech For Coughs and colds *the Troches* are effectual

PERFECTLY SAFE IN ALL CASES —MRS WINSLOW'S SOOTHING SYRUP for all diseases of children such as teething, wind colic, etc is a safe reliable and harmless remedy It not only relieves the child from pain but regulates the stomach and bowels corrects acidity and gives tone and energy to the whole system gives rest to the mother and child Hostetter Smith & Dean, Agents for the Pacific coast

THE FAMILY DYE COLORS —Nothing has obtained so wide a reputation nor one more merited than the *Family Dye Colors* of H ws & Stowe s The colors include every desirable shade and are as fadeless as they are beautiful Sold by Smith & Davis

HONESTY IS THE BEST POLICY, is a true and valuable saying KOHN & FISHEL, No 91 Front Street have followed it up therefore are now selling more Clothing and Gents Furnishing Goods, Dry Goods, etc, than any other 1 use in the State The people are confident that they can trade with them without fear, and buy their wares at prices beyond competition.

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT,	CHAS E McLANE,
WM C RALSTON,	A. HAYWARD,
LOUIS A. GARNETT.	

LOUIS A CARNETT President and Manager
JOHN HEWSTON Jr Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than by any other part of the world, and advances to the mining interest of this coast an important increase in both the mining and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One eighth of one per cent (heretofore a quarter) for all amounts over $1 000, and two dollars for any smaller sum. Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent, for all amounts over that sum, and one per cent on the silver contained Returns made in twenty four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 900 parts gold, 2 cents per ounce
On bullion from 900@900 parts gold, 4 cents per ounce
On bullion from 800@750 parts gold, 6 cents per ounce
On bullion from 750@949½ parts gold, 8 cents per ounce
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be coined by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U S BRANCH MINT

For the convenience of those not familiar with the terms of the Mint we subjoin the tariff of charges now in force at that institution

For refining bullion under 900 parts gold 3 cents per ounce

For refining bullion from 900@800 parts gold 5 cents per ounce

For refining bullion from 800@750 parts gold, 7 cents per ounce

For refining bullion from 750@650 parts gold 11 cents per ounce

For refining bullion from 650@949½ parts gold 14 cents per ounce

The charge for coinage is half of one per cent and the charge for making fine silver bars, the same

Comparing the net value of deposits for coinage with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following rates to equal the return which would have been made had they been deposited for coinage

850 par to equal Mint return at refining charge of 14 cents

845 par to equal Mint return at refining charge of 14 cents

800 par to equal San Francisco Assay & Refining Works return at refining charge of 8 cents mh16d2p3m

THE WEEKLY OREGONIAN.

THE WEEKLY OREGONIAN is published this morning. It contains the latest telegraphic news from the East and California—a selection of the best articles appearing in THE DAILY OREGONIAN,—full and reliable news from the Mines, and the most copious commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon; and in the particulars of Commercial statistics and the Markets we aim to make it the most reliable and more especially in matters pertaining to Oregon interests.

TRADE WITH MONTANA.—Mr Phillip Ritz, who has spent the last six months upon a trip to Washington, on business connected with the opening of the Mullan road, arrived here by the last steamer. He is confident that no difficulty will be experienced in getting from Congress, at the next session, an appropriation sufficient to open the Mullan road, from Walla Walla to Helena, Montana. The sum he estimates as sufficient is $75,000. He passed over the road last fall and found that the only portion of the road which cannot now be traveled with wagons, is that from the Coeur d'Alene Mission, 209 miles from Walla Walla to the Missouli river, a distance of about 70 miles. This part of the road lies in the Coeur d'Alene mountains, where the Mullan road frequently crosses the river. The bridges built by Capt. Mullan were all very fine. The bridges built by Capt. Mullan were all very fine. To grade a few places to avoid crossing the river. It will be necessary to replace some of these, and to grade a few places to avoid crossing the river. It will be necessary also to repair or reconstruct some of the ...ondary road laid down by Mullan. The original expenditure on the road was $340,000, and it was opened for wagons to Fort Benton. When Mullan began the road at Walla Walla, he was somewhat inexperienced, but as he went on he naturally learned his business better, and the consequence is the worst part of the road is that which was first built—on the Walla Walla end. And these the greater part of whatever appropriation may be given need be expended. Mr. Ritz, after gathering all the information attainable on his trip, expresses the unqualified opinion that the Montana trade belongs to the Pacific coast, and that even goods from New York can be transported to Virginia City or Helena via Portland, Oregon—should the Mullan road be opened for wagons—cheaper than by the way of St. Louis and the Missouri river. Freight from New York to St Louis, he says, costs $70 per ton, while the same goods can be put down in Portland for about $22. From St. Louis to Helena, by river and wagon road, is near 2,000 miles travel; from Portland to Helena, by river and wagon road, is about 730 miles. With an appropriation of $75,000 he thinks every part of the road from Walla Walla to Helena can be put in excellent condition for heavy teaming, and that then, goods can be transported through from Portland at less cost than from St. Louis We of this side would have another advantage: while the boats from St. Louis can only make one trip in a season, the same steamboats on this side could make two, if not three trips. Mr. Reily expresses surprise that Portland should quietly allow St. Louis to appropriate the Montana trade when the facts are patent that the most of it could be secured by the former with less than half the expense and difficulties encountered by the St. Louis people.

VANCOUVER ITEMS.—The following items are from the VANCOUVER *Register*: Twenty-five men of Captain Leader's company went up on Wednesday's boat to join the regiment of the company at Lapwai, I T.....We have authority for stating that the rumor that Col. Hodges, the popular Q M. of this depot was about to leave here and to be succeed by Captain Weeks, is without foundation .....Preparations on a grand scale, we understand, are being made for the celebration of the 4th of July at Kavanlon, public dinner, civic and military parade, to wind up with that highly fashionable *denouement* for all great events in Vancouver, a grand ball.....Mr. Lewis Johns and D. A. Coulter are making preparations to start a soap factory in this city in a few weeks. They have abundant encouragements and there is no reasonable doubt of the success of the project .....A detachment of the 108th Artillery arrived here Tuesday evening per *Oriflamme*. They left New York on the 1st of April. They are all recruits designed to fill the depleted ranks of companies stationed at Forts Hancock, Stevens, and other points above. They were commanded by Major Reno Capt. Tramble, who came up on the *Oriflamme*, has been at the post before, under different circumstances. He was then an enlisted man, belonging to Co. "F," 1st 1st Cavalry, and by meritorious services during the late war won for himself the present honorable position. —At the Five Department election on Monday, for Chief Engineer, W. H. Tromp, 65 votes; H. Cochran, 45; G. W. Bailey, 13. For Assistant Engineer, E M. Freeman received 73 votes, J. G. Castle, 61; J. D. Healy, 55; H. C. Morse, 47; scattering, 5. Total number of votes polled, 120.

FOR RUSSIAN AMERICA.—We find the following in a San Francisco exchange: The Sacramento *Union* has information that "a regiment of soldiers is about to be sent North by the Government to raise the Stars and Stripes over our new territory and hold possession of it." We understand that Gen. Steele, who has command of the expedition, has made requisition on the Quartermaster's Department for a thousand pairs of skates, a thousand pairs of snowshoes, and a large lot of playing cards The severity of the latter will be obvious when it is known that the only available recreation in Hyperboreas during the greater part of the year, is "freeze-out." The little paper from which we quote is *ex fact* in military matters, so we accept its information, unquestioned. The articles mentioned, not being included in the regulation list of of army supplies, there will be, doubtless, something of a flutter among contractors. They'll have a big thing on skates if not on snow shoes.

ROUGHTEN QUIRE.—On Friday, the 10th, the following cases were up before the Recorder: G. W. Taylor, charged with assaulting Mike Dougherty with a dangerous weapon a dray stake—had an examination and was held to answer in the Circuit Court. Bail was fixed at $200.

Sing Kee Wo, the Chinaman with whom Charley Lawrence had the "unpleasantness," on Thursday, was found guilty of an assault and battery and was fined $6 and costs, in default of which he went to jail for two days.

Alexander Wilkins, charged with arson, by setting fire to Oro Fino Hall, had an examination, and the evidence being insufficient to convict him, was discharged. There was some evidence which legally considered, directed suspicion toward him, but it was not enough to fasten upon the mind a legal belief of his guilt.

ODD FELLOWS' BALL.—The members of the order of Odd Fellows in Portland, are making very complete preparations for a grand ball, at Oro Fino Hall, next Thursday evening. The honorary committee embraces names of every one of every considerable town north of Eugene City and the other committees are composed of citizens of the city whose taste and skill in the management of such affairs are well known. The proceeds of the ball, we understand, are to be devoted to the benefit of Hannah Kelly, which is young and, financially, not very strong. Tickets can be procured of Jacob Stitzel, J. Bachman, Chas. S Fechheimer or W. W. Spaulding A large assemblage is expected and a generally good time may be confidently looked on.

OREGON BIBLE SOCIETY.—During the past week, the annual meeting of the Oregon Bible Society was held in this city. The officers elected for the ensuing year are: D. Leslie, President; R. Walker, Vice President; H. C. Benson, Treasurer. The Executive Committee consists of O. H. Atkinson, J. D. Holman, O S. Trambes, and J. K. Delph. About $100 was received through collections, for the funds of the society. The next annual meeting will be held in this city.

Society is said to be good, and it has on hand a considerable supply of books. Steps will soon be taken to incorporate the society under the State law.

DUFF'S DELAY.—The S. F. *Dramatic Chronicle*, of the last date received, says of Judge Deady's decision in the McGill-McDowell case: "After we have found time to give Judge Deady's opinion a careful perusal, and to examine the grounds upon which he rests his decision, we shall recur to the subject." But why not do it quickly? Why keep the public mind in cruel suspense? Why keep the libel damages vibrating between the contestants? Essential whether to drop into McGill's pocket or to return to McDowell's wallet

If it were done, when 'tis done, then 'twere well
It were done quickly.

WOOL IN SAN FRANCISCO.—The S. F. *Mercantile Gazette* of the last of April, noticing the arrival of small lots of wool from Oregon and the lower coast, says: "The total receipts from 1st January to 1st April were 443 bales, during the eleven days under review the receipts have been nearly 500 bales The mills here buy sparingly, and the means for shipping is too costly at present, consequently the market is in a very unsettled condition. Sales include 12,000 lbs fall and 15,000 lbs spring clip, chiefly for export, at 16@21c ₱ lb."

U. S. DISTRICT COURT—DEADY, JUSTICE.—Yesterday, in Nathan vs. steamship *Ajax*, an order for opening depositions was entered. The rest of the day was consumed in taking testimony in the case of the U S vs I A Davenport, indicted for perjury. At a late hour the defence rested and the Court adjourned The argument will be heard to-day

SALE OF BOOKS.—The entire stock of books and stationery of E. Bonsey, on first street will be sold at auction this evening, at the premises, by Oscar Kilbourn, auctioneer. This stock comprises all of the late and desirable works of every description; a large assortment of family Bibles, prayer books, photograph albums and fancy articles.

FROM MONTICELLO.—The *Rescue* arrived from Monticello, yesterday afternoon, with a considerable number of ...ers, among the number, a deputation of Siwash braves of the Cowlitz band They come here to solve certain commercial problems, to-wit how much muck-a-muck and whiskey can be bought for one dear skin etc.

WILLAMETTE FREIGHTS.—Arrived per steamer *Senator*, from Oregon City, Friday, May 10th: 61 gunnies bacon, 15 boxes produce, 12 half bbls do, 5 bales mdse, 500 bags wheat, 55 boxes apples, 6 boxes eggs, 1 box butter, 2,641 qr sks flour, 1 bale woolen goods, 5 bales wool sacks, 15 cases lard, 1 roll leather and a lot of feed.

ACADEMIC TERM.—The next term of the Portland Academy and Female Seminary will begin on Monday the 13th inst. So far as is known, the school will open with flattering prospects.

DRIED FRUIT.—Oregon dried fruit is quoted in the San Francisco market as follows: Dried apples, 6@10c ₱ lb, peaches, 10@12½c; plums, 12½@20c, pears, 12½@15c.

ADDED TO THE CHURCH.—Within a short time, thirty-six persons have united themselves with the Congregational church of this city.

HEAVY FOG.—The sailing of the *Oriflamme* is ...ed till six o'clock this evening.

ONE DAY FORTY EIGHT HOURS LONG.—The *Scientific American* has lately been engaged in an effort to explain scientifically, how long any given day remains upon the earth It says: "We propose to show that Monday or any other week day is forty-eight hours long. we mean that during the forty-eight hours Monday is on earth somewhere to be found. The Monday of this city (New York) is of course twenty-four hours long, but before and after our Monday there is Monday in some other quarter. When Monday begins in New York there have been three hours of Monday in London, and for three hours after our Monday ends there will be Monday in San Francisco Thus between these places Monday lasts eighteen hours. Now, if the day line were at our antipodes, Monday would begin then as twelve hours after ours. Thus, for the space of forty-eight hours the earth is not rid of Monday. The fact may be illustrated in another way Suppose we are at the day line, Monday there begins, and in twenty-four hours along comes Tuesday But just west (half an inch if you please) Monday began only an instant before it ended east of the line The Monday east of the line is the same length and in all, Monday lasts forty-eight hours" The article from which the foregoing is quoted, fixes the date line of the Occident and the beginning of the other —where one day ends and the next one begins—somewhere in the Pacific ocean, between America and Asia. Another journal in noticing the article, facetiously expresses the hope that this line may fall upon some island of the Pacific, so that it may be found out, and that the human family may yet find it possible to enjoy the pardon of having one fact in Monday and the other in Tuesday

THE CITADEL TAKEN.—We can imagine what an excitement will be created in the Capital when Barman Bros' large invoices of Clothing arrive The array of cases and boxes was truly astonishing as they were conveyed to the P T Co's wharf And what is stranger still, there seems to be no depletion of their immense stock at the corner of Front and Morrison, formerly known as the City of Paris Store. When these gentlemen commenced business in this city, many wiseacres said that making a specialty of the sale of Ready Made Clothing would not pay, but this firm have clearly demonstrated the contrary, and they propose to convince the people at the Capital that the same is true of them there.

NOTICE TO THE PUBLIC.—From and after this day the well known FRENCH LAFAYETTE RESTAURANT will serve a first-class table at the reduced price of Seven Dollars per week.

Something New in Dental Surgery.

Extracting teeth by Dr. Richardson's apparatus, with Ether or Chloroleue Spray, is local in its application, the teeth and surrounding parts only becoming insensible to pain Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxide (laughing gas).

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last 5 years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the Office.

AN ANTIDOTE FOR POISON.

THE PAIN KILLER.—Rev. T. Allon, writing from Tavoy, Burmah, says: "Within the past four years I have used and disposed of about five hundred bottles, but am now out. Please send me a fresh supply as soon as you can—say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Burmans and Karens. I always take it with me into the jungles, and have frequent occasion to use it, both on myself and others. One night, while sleeping in an open Zayats, I was awoke by a most excruciating pain in my foot. On examination, I found I had been bitten by a centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep."

Rev. Mr Hibbard, writing from Burmah to his father, says: "I have used Davis' Pain Killer for coughs, colds, summer complaints, burns, and for the sting of scorpions, with uniform success. We always keep it where we can lay our hands on it in the dark, if need be." ap20dlc

CALL

The Appropriation for the South.

REMARKS OF GEN. LOGAN IN THE HOUSE OF REPRESENTATIVES.

Mr Chairman I do not intend to detain the Committee any great length of time in discussing the proposition before us I would be as willing as any one to put my hand in my pocket, and, as far as I am able, relieve the sufferings of any unfortunate class of people. But looking at this resolution as I do, I cannot put my hand in the pocket of the tax payers, many of whom are as poor as those who pretend to ask this Government to be made an almshouse, and assist in appropriating $1,000,000 as a pension to one armed and one legged rebel soldiers, or their families of that class. The resolution, sir, is nothing more than a dodge to make pensioners of rebels that cannot be provided for in the usual way. You do not put them on the United States pension rolls, by the side of the wounded soldiers and widows and orphans of those who died in defence of their country, but by another mode you put them on the bounty of the Government. We do not come here from Missouri or Illinois, or from any of the Northern or Northwestern States asking alms from this Congress Although there are many poor people in the Northwest, we do not understand that we have a right to come to Congress to be fed. We have all suffered during the war, and have many people left penniless. There was suffering before the war, and starving people all over the country, and whoever thought of asking Congress to be the dispenser of charities to a class of people who would not help themselves? But an age of treason has taught us strange things; punish nobody, compromise with traitors, and then feed them whenever some one suggests it. All this is done for States that rebelled, but in the loyal States the voice appealing in weeds for help must be provided for in some other way, and our anxiety, our charity, our sympathy, turned in a southerly direction. Oh, ye poor of the North! how unfortunate you were, if you ask alms of the Congress of the United States, that you had not lived in the land of treason!

Mr. Washburne of Indiana. I would ask the gentleman if he is in favor of allowing to starve the 25,238 colored people who General Howard says will starve to death unless they are assisted in some way?

Mr. Logan—I am not in favor of allowing anybody to starve if I can help it. I do not want any man, or any woman, or any child, to starve. But I will say to the gentleman this, that it has not been brought to my knowledge that they are starving more than are other people; nor has it been brought to my knowledge that these people are in such a condition that they could not relieve themselves by proper industry and exertion on their part. Nor has it been brought to my knowledge that the wealthy people in these States are not able to put their hands in their own pockets and give this charity for the purpose of saving the lives of these people just as well as the wealthy people of the North can do it. In my own State, when we have destitute people, we put our hands in our pockets and provide for them; we do not ask Congress to do it. When the gentleman says that this is for the benefit of colored persons the statement is not correct. The present appropriation, if confined to the classes who come under the Freedmen's Bureau, is sufficient General Howard tells us in his report that sufficient appropriation has already been made, to be expended under his direction, to supply the classes embraced, and if that be true, it is his duty to provide for those twenty or thirty odd thousand starved colored people at the South; and he says he has money enough to do this, $1,000,000 having been appropriated for the purpose. What is the propriety of appropriating another million when General Howard says he has abundant means if he be confined to his department? I am told by a gentleman from Massachusetts, (Baldwin) that General Howard stated to him this morning [illegible] is appropriation, while it might be used [illegible] been asked by him; but that he had [illegible] as he was directed to do. Now I am opposed [illegible] House being directed by anybody to do anything in reference to any of the people of this country that is not appropriate to be done. Sir, in this free land there should be no paupers of this kind, and the millions of dollars of property given up to the rebels by assent of this Government was a charity improperly bestowed, and we should be sure of what we do in this instance. There is no State, either loyal or disloyal, that is not able, by a light tax on themselves, to support their own poor, and so long as this is the case, I, for one, am not willing to bow our people down with such burdens, when reason and justice are against it, although such appeals as can be made in favor of suffering, many times rest upon a supposed state of facts that does not exist. Sir, this is all I desire to say.

THE MARIPOSA ESTATE.—A correspondent of the Stockton *Independent* [illegible] their reports to the former estate of Gen. Fremont, a

The renowned Fremont estate, which has been a fruitful source of litigation and trouble for years, has for some time been lying idle, and as it embraces the best portion of the county, every part of business naturally suffers. Not a mine on the grant is being worked, and the people generally "hard up" The Princeton mine alone, two years ago employed 500 or 600 men, and the [illegible] Mariposa filled with water, the machinery [illegible] rusting apparently in rapid decay. [illegible] cause of this would fill a [illegible] ug, as it would, a complete history [illegible] from Fremont's time up to the present. Suffice us to say that, through the operations of the late Superintendent Dodge, the Company [illegible] themselves bankrupted and the whole estate [illegible] a decidedly mixed up condition. Mr. [illegible] the present overseer, is now engaged straightening up affairs as far as possible, and [illegible] mills in operation at the earliest possible [illegible] is glad intelligence to the people all over the county, who expect "flush" times again very shortly. There are supposed to be heaps of fabulous [illegible] within the lines of the grant, but which are not open to the people for prospecting Mariposa is unquestionably as rich in [illegible] (particularly that part belonging to [illegible]) as any other section of the [illegible] the country is denied the benefits of [illegible] wealth. No inducements are held [illegible] miners to prospect the mountains, such as [illegible] the Company enjoy of the whole [illegible] Let all that, the fair claims already [illegible] will call to bring a third [illegible] population to the county, and to revive business [illegible] when in active operation. It is hoped [illegible] begins soon near at hand.

[illegible] Assay of San Francisco Mint during three months ending March 31st, 1867, there [illegible] received $2 154,347, of which $2,000,000 [illegible] of the gold $1,414,479 were from [illegible], $7,094 from Nevada, $48,504 from Oregon, $225,590 from Idaho, $76,638 from Montana. And of the silver $46,231 were from Nevada, $1,430 from Idaho, $624 from Arizona, and $15,448 were parted from gold.

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M., May 10, 1867

We have no quotation for gold later than San Francisco, May 8th, when the New York market was reported as excited and variable. At 1 P. M. it was up to 145, but declined, at the close of the board, to 138. Legal Tenders in San Francisco, were 73½ buying and 74c selling.

We have no improvement to both in trade. There are comparatively few orders for goods and such as are received are limited and for broken assortments. Reports from Eastern Oregon and Idaho [illegible] business extremely dull, with no immediate prospects of a revival. While this condition of things exists, no change need be expected here The only articles in which jobbing seems to have any life, are flour and wheat The demand for flour for the eastern market continues firm and prices have a tendency to advance. We quote Imperial, today, at $6, Dayton super-fine, $5, and Harrisburg, $5 25—an advance in each.

We give our readers the following extracts from New York and San Francisco papers of the latest dates received relative to flour prospects. The *Mercantile Gazette and Prices Current* says,

Advices from Europe and the Atlantic States convey many flattering remarks concerning California and Oregon flour and wheat.

From the New York *Price Current & Commercial Reporter*, of March 16th, we clip the following notice:

California flour has been in active demand and notwithstanding the liberal arrivals, prices have steadily improved, and at the close it is in request at buoyant prices; much of this flour is really of excellent quality, but there is a marked difference in the [illegible] The regularity of Oregon flour have also been fully and this is attracting much attention, and is of excellent quality. We notice a very handsome article from Vaughn's Mills that is highly spoken of, and we think it worthy the attention of the trade. The sales of California and Oregon flour are 9,400 barrels.

The following is from the *S. F. Mercantile Gazette*:

FLOUR.—The demand for export has been large. The quantity shipped includes 1,500 bbls. via Nicaragua, and 500 bbls. Oregon Imperial, by the packer, to test its keeping quality, "round the Horn." The current quotations for heavy lots at the mills are as [illegible] baker's do family, $7@7 25, do in half sks, $6 50@6 75; extra family in half sks, $6 25@6 50, do in qrsks, $5 50@6 75; superfine, in half sks, $5@5 25, and in qr sks, $4 50@5 25. Oregon, $6 50 for qr sks, and $5@5 50 for superfine. Sales during the past eleven days include 3,000 sks Oregon Imperial, and Vaughn, ex *Ajax*, at $6 25, no wheat. 400 do superfine, $6 50; 3,000 bbls Franklin (Stockton) extra [illegible] $5 25 in double sks, free on board the steamers 1,600 bbls Genesee superfine, $6, 2,000 do extra $7 1,500 bbls Occidental extra, in qr sks, $7, 1 300 bbls XXX Stockton City Mills extra, $7 50, free on board, 1,400 bbls Minnesville, 800 do Imperial, and 200 do Vaughn's extra, $6 50 2,600 bf sks Pacific Mills' extra, $7 25.

The same paper says

The action of Wells Fargo & Co 's agents in this city, in raising the rate of freight on flour 50c per bbl in sacks has given cause for considerable grumbling, as several of the parties most interested in this important trade had made arrangements with the company to send 10,000 barrels by each steamer of course calculating on the same rates of freight This advance of 50c on each bbl decreases the margin of profit to a line below which it may be no wise to risk sending flour to the New York market It would be a serious injury to the State were this outlet for her surplus flour to be cut off Some of the parties who made arrangements with the company, are said to have offered to deposit the money to insure the freight if necessary They will pay the additional fifty cents per bar rel under protest

We reproduce here, a portion of our New York letter of April 11 :

Flour, in the order at which it sells in this market, is rated as follows

New York State common brands, $10@12 50
" " extra and superfine, $12@13 75
Michigan, Indiana, Wisconsin, etc $10@14 00,
Ohio choice extra brands, $13 10@14 50,
Genesee extra brands $13 50@15 75
California and Oregon $15@16 25
Missouri, $13 75@18 00

At the last steamer from Aspinwall, there arrived 1000 barrels of Oregon flour, shipped by Messrs Savier & Co and we understand that it came out of the gunnies and sacks in prime order, and rates next to the best Missouri, which is the highest priced flour in the market To the shipment of this flour, say $5 50, gold add freight to New York, $1 50 or $4, and the cost laid down here is about $10 25 gold, or $13 75 in greenbacks, and as it sells at about $16, the margin for profits is very handsome But as the prices for all brands have advanced within the last month, and the news from the west indicates a short supply, it may be expected the further shipment of Oregon flour to this city will bring a still greater price Indeed, if some of the Western Statesmen may be relied upon, there is barely grain and flour enough in the country to suffice until the next harvest, and some are predicting an actual dearth in the "staff of life" before August. We may yet see the later shipments of Oregon flour selling at $18 or $20.
